

FAASTeam presents:

Electronic Logbooks

The electronic pilot logbook is not exactly a new invention. Many pilots have created their own using documents or spreadsheets. More recently, mobile devices and apps have made electronic logbooks affordable, useful, and easy. In this safety seminar, we will review the reasons you may want to make the switch from paper to electronic, or to supplement your paper with electronic, including the ease with which you will be able to track and report flight currency. We will also give an overview of the available apps and run through options on how to get started. This seminar is a great starting point for pilots who want to maintain their flight records in a more organized and accessible format. This seminar will be co-presented by Kumar Gopal and Mark Rymill. Kumar Gopal is a flight instructor with more than 1,000 hours in Cessna, Piper, and Cirrus aircraft. Mark Rymill is an instrument rated private pilot and aircraft owner. Both Kumar and Mark are also software development professionals in the Bay Area. San Carlos Flight Center was voted Best Flight School in the US in the 2013 AOPA Flight Training Excellence Awards. We are committed to promoting safety in general aviation through our evening safety seminar programs. For more information about this and any of our weekly seminars, please visit

Event Details

Sat, Sep 13, 2014 - 12:00 PDT

San Carlos Flight Center

655 Skyway Rd

Suite 215

San Carlos, CA 94070

Contact: San Carlos Flight Center
(650) 946-1700

info@sancarlosflight.com

Select #: WP1557599

Representative Terry Fiala

<http://sancarlosflight.com/activities-and-events>.

Directions: Located in the Skyway Building, next to the Hiller Aviation Museum. Parking and entrance behind building. Suite 215 is upstairs in the northwest corner. Pilots who fly in should park in transient parking and call the Flight Center for a ride (650) 946-1700.

A message from the National FAASafety Manager

Invite a fellow pilot to the next WINGS Safety Seminar in your area.

Sign up for the FAA's safety services at www.FAASafety.gov!

The FAA Safety Team (FAASafety) is committed to providing equal access to this meeting/event for all participants. If you need alternative formats or services because of a disability, please communicate your request as soon as possible with the person in the "Contact Information" area of the meeting/event notice. Note that two weeks is usually required to arrange services.
